

MOB IS BEYOND ALL CONTROL

Undertakes To Drive All Negroes from Pierce, Missouri.

LYNCH LAW RULES

General Attack Upon the Colored People with Guns, Has Been Going On.

NEGROES IN TERROR

Springfield, Mo., Aug. 20.—Advices from Pierce City this morning say the mob that started out at midnight to drive all the negroes from the town are absolutely beyond the control of the officers, and calls for assistance have been sent to Springfield, Aurora and Monett.

After Godfrey and Cypert had been lynched the mob broke into the armory, seized the guns and ammunition and commenced a general attack on the negroes. Many resisted and indiscriminate firing resulted on the streets. Several houses were set on fire and the mob refused to allow the fire department to quench the flames.

Two negroes were fatally shot. It is well known to the mob that Godfrey and Carter were not guilty of Miss Wilds's murder, but were hanged on general principles.

Anti-Negro Riots Continue

Pierce City, Mo., August 20, 2 p. m.—The anti-negro riots continue unabated. The corpse of one negro was taken from one of the houses and burned last night. It is believed that other corpses will be found later. All of the negroes have been compelled to leave the town. Three citizens were wounded in last night's shooting. Armed men patrol the whole town.

Two Negroes Lynched.

Pierce City, Mo., Aug. 20.—Eugene Carter and another negro named Godley were taken from jail last night and lynched on the charge of assaulting and murdering Miss Casselle Wilds on her way home from Sunday school Sunday. When Godley was strung up there was much shooting at the body and a boy was killed and several persons wounded by the indiscriminate firing. Just before his death Carter confessed that the real culprit was Joe Clark, a Pullman car porter, and the mob has arranged to meet him when he returns from his run and lynch him. Godley, the first man lynched, had already served a penitentiary sentence for assaulting a woman 60 years of age. The feeling against the negroes is intense and twenty-five armed men are now raiding the colored quarter, shooting at every black they can find. The murder of Miss Wilds was most atrocious. She was met near a railroad bridge, dragged into the woods, assaulted and her throat cut with a razor. A farmer working in a near by field witnessed the assault, but hearing no outcry did not go to her relief. When he saw the negroes running away he gave the alarm. The body of the girl was found at noon yesterday, and the negroes were captured shortly afterward.

MAY ASK REMOVAL OF EVANS

Indiana G. A. R. Officials Predict Fight on Pension Commissioner.

Indianapolis, Ind., August 20.—Local G. A. R. officials predict that the effort to have Commissioner of Pensions Evans removed will be pushed in the coming national encampment of the G. A. R. at Cleveland. Indiana has been one of the most active states in the fight against Commissioner Evans, and these officials say the representatives from this state probably will be at the head of the movement to have the Grand Army take official action.

DIES BECAUSE OF LOVE FOR LIQUOR; MRS. SAMUEL MORRIS TAKES POISON

Her Husband Hears of Her Death, While Playing a Funny Part at Hopkins' Chicago Theatre.

Chicago, August 20.—While Samuel Morris, leading comedian at Hopkins' Theatre, was compelled by the exigencies of his position to go on with his lines as "Rake, Bertie's Val," in "Under Two Flags" last night, his wife lay dead at the Saratoga Hotel. She had drunk a pint of wood alcohol.

Although notified earlier in the afternoon that she was dying, there was no one to take the actor's part, and he furnished forced amusement for the audience until the curtain fell. News of his wife's death was received just as he finished to him a particularly distressing line, the close of the first act:

"O, Lord, I have put my foot in it."

Unable to control her appetite for the fiery liquid, Mrs. Morris drank enough of it to cause her death. Although it was discovered that she had taken the alcohol and Dr. W. Lewis Tallman was summoned, he

LOVING CUP FOR CERVERA.

Great Interest Taken in Plan to Reward Spanish Admiral.

New York, Aug. 20.—Those at the head of the movement which was started some time ago to present a loving cup to Admiral Cervera for his kindness of Lieut. Hobson and his men while they were prisoners at Santiago express themselves as much gratified with the interest which has been taken in the matter. Credit for starting the movement is given to Arthur Bird, editor of the Sidney, N. Y. Record.

A. P. Clark, a resident of that town, said today that testimonials are being received constantly, favoring the plan, and that among these was a letter from Secretary of the Navy John D. Long, saying: "I shall be glad to see a testimonial of his magnanimity given to Admiral Cervera."

Lieut. Hobson has asked to be allowed to head the list of subscribers.

TUBE CO. WORKERS OUT ON A STRIKE

Amalgamated Officials Believe That South Chicago Mills Will Soon Be Deserted.

Pittsburg, August 20.—Seven hundred and fifty employees of the Pennsylvania Tube Company struck this morning. This makes thirteen hundred and fifty men that have left the plant since last night. The men are members of the Federation of Labor and are striking in sympathy with the Amalgamated.

The Amalgamated officials believe that the steel workers in South Chicago will be out before the week ends.

South Chicago Also

Chicago, August 20.—Enough men are expected to join the strikers' ranks this afternoon to tie up the South Chicago steel plant.

DYNAMITE ENDS SIX HUMAN LIVES

Terrific Explosion in a Herkimer, N. Y., Round House, Which is Caused by Fire.

Utica, N. Y., Aug. 20.—Six men lost their lives in the Herkimer powder explosion last night. The bodies are frightfully mutilated. The dead are Levi Gilbert, John Deck, Lewis Jackson, Harry Stansel, Jas. Nagle, Jos. Keller.

BIG EXCURSION FROM SHULLSBURG

Over three hundred excursionists from Shullsburg arrived in the city this morning over the Chicago, Milwaukee & St. Paul railway. Their destination was Crystal Springs park where a general good time was had.

Henry C. Stearns, formerly of this city, was the leader of the excursion, and did all in his power to make the picnic a success.

Two special trains over the North-western pulled into the city about eleven o'clock this morning bound for Devil's Lake. The first section of eleven coaches and a baggage car had almost seven hundred excursionists on board and the second section nearly as many. The trains arrive at Devil's Lake about one o'clock.

The St. Paul road will run a special train to Mineral Point on Thursday and Friday of this week for the benefit of those wishing to attend the fair. They will leave here at 6:40 a. m.

Kenosha, Wis., August 20.—The Kenosha Evening News and the Telegraph Courier have consolidated, with Samuel S. Simons as editor, and with him will be associated E. R. Head who for six years has been managing editor of the Evening News. G. P. Hewitt, former editor of the News will retire.

Rawson & Son, the contractors for the new city hall building received two cars of material this morning for the new building over the Chicago & Northwestern.

CAUGHT IN RIVER OF BLAZING OIL; FIVE FIREMEN ARE KILLED

Twenty Are Frightfully Injured and Twenty-Six Are Missing—Terrible Calamity in an Oil Works Near Philadelphia—Fire is Still Burning.

Philadelphia, Aug. 20.—Five firemen are known to be killed, twenty injured and twenty-six missing are believed to be in the ruins of the great oil fire which is still sweeping the works of the Atlantic Refining company at Point Breeze.

Sixteen of the missing men are employees and ten are firemen. They were trapped by an explosion of the big tanks and caught in the rivers of blazing oil.

In their awful agony many of them jumped into the river from which they were rescued by comrades.

Three of the dead have been identified but the other bodies are so badly mangled and charred that they are almost beyond recognition.

The intense heat and the danger of explosions renders the search for other bodies almost impossible.

The oil is valued at thirteen hundred thousand dollars and the property destroyed is worth half a million.

The scene at the fire is indescribable. The flames are burning furiously at three o'clock and it will be several days before it can be extinguished.

The latest estimates place the number of dead at five; injured, 21; and missing, four.

Struck By Lightning

Philadelphia, August 20.—Just before a torrent of rain swept over the city yesterday afternoon a lightning bolt struck a big benzine tank at the Atlantic Refining Works at Point Breeze. The tank was split almost in half and the 25,000 barrels of benzine sent a mountain of flame a thousand feet in the air.

This morning, while a large force of men was vainly endeavoring to check the fire, another tank of benzine exploded, and many of the fighting victims to the blazing oil and the flying pieces of iron.

Three or four were killed and many badly burned before they could be rescued by their companions. A general call was telephoned for ambulances and the fifteen injured were hurried to the hospitals in the lower end of the city.

RACINE'S WELCOME TO THE RED MEN

The City in Gala Attire Today, in Honor of the Order—Program for the Week.

Racine, Wis., August 20.—The city is decked in gala attire in honor of the Improved Order of Red Men of this state, who meet here today for a five days' session. Many of the delegates are already in and the rest will arrive tomorrow. The local arrangement committee has assurances that over 300 will come from different cities. The program includes band concerts, carriage rides, fire run, automobile race and big ghost dance.

Among the head officers expected are Great Sachem George P. Wheeler of Lake Geneva; Grand Superior Sagamore W. J. Patterson, West Superior; Great Junior Sagamore Chas. Griffith; Ashland; Great Prophet G. Holmes; Daubner, Waukesha; Great Keeper of Wauwamin George W. Reay, Delavan.

The big parade will come off tomorrow morning at 10:30 o'clock. Thursday night at 11 o'clock the ghost dance will be given on Monument Square. Friday afternoon the automobile race and in the evening the fire run will take place.

WEST CAN STAND THE LOSS IN CORN

Washington, August 20.—Director of the Mint George E. Roberts, who returned from an extended western trip today, paints a bright picture of that section of the country. "The corn crop has been hard hit," he says, "and it would be a very serious matter were it not that the west has so much money in its wheat. It has the greatest crop of wheat ever raised, and with short crops abroad, wheat is bringing a good deal of money. The loss of corn will be felt throughout the cattle raising and hog producing states. It means dearer feed and more costly meats. The encouraging feature of the situation is the cheerful manner in which it is accepted. Improvements are going forward, trade is getting brisker and everybody seems able to stand the losses without sacrifices to themselves."

LIVE FIVE DAYS IN FOUL AIR TUNNEL

Two Men Released at Cleveland After Being Imprisoned Under Lake Erie Nearly a Week.

Cleveland, O., August 20.—Two men who were entrapped in the water works channel through the disaster of last Wednesday, were rescued yesterday, after having spent five days in the excavation 200 feet below the surface of Lake Erie in total darkness, without food, breathing air so foul that it almost suffocated them and in momentary expectation of death. Hope for saving their lives had been abandoned by the city officers after four days of untiring effort and their miraculous escape is due to a chance visit to the crib by members of the life saving crew, who heard feeble tapping on the tubes leading down to their cell.

The men, whose names are Adam Kest and Joseph Eugene, are half conscious from the effects of the strain and privation of their terrible experience, but physicians at the hospital where they were taken express the hope that with careful nursing they may recover.

ASHLAND FEARS A SCOURGE

Ashland, Wis., August 20.—The people of Ashland are much exercised over the prevalence of smallpox in Leonard camp, half way between here and Superior. Within the last week five cases of smallpox have come out of that camp into this city. The condition of the camp was reported to the state board of health last June, but the State Board has taken no action.

PRESIDENT VISITS ZOAR.

Chief Executive, His Wife and Party Take a Short Outing.

Canton, O., Aug. 20.—President McKinley is spending today at Zoar, the erstwhile communistic village organized by Bavariath, seeking religious liberty about eighty years ago, and conducted on the socialistic plan until about two years ago, when a division of property was effected.

Mrs. McKinley accompanied the president. An informal party, including the present McKinley household, their guests, Colonel and Mrs. Myron T. Herrick, their son, Parmlee Herrick, and a few Canton relatives and friends of the president and Mrs. McKinley, was organized this morning. Colonel Herrick's private car was attached to a special train for the trip. The party will return to Canton late this afternoon.

CZAR OF RUSSIA WANTS A DIVORCE

He is Bitterly Disappointed Because of Czarine's Failure to Bear Him a Son.

London, August 20.—One piece of gossip of the London clubs today is startling and interesting. It tells of serious trouble at the court of the czar of Russia, which may have a far reaching effect. It is known that the czar is bitterly disappointed because no son has been born to succeed him on the throne, this disappointment being softened only by his devotion to the czarina.

It is now declared, according to this club gossip, participated in by well-known diplomats, that the czar is altogether unlikely to give birth to a son, and that if he should do so a son would certainly be a weakling. This statement is said to have been made by physicians near to the court.

It has excited the Russian cabinet members of which believe that the czar should adopt one of two alternatives, divorce the czarina and marry, or declare the present czarowitch heir to the throne and hasten his marriage to the Princess Margaret, one of the daughters of the Duke of Connaught. Princess Margaret is the healthiest girl in any of the royal families of Europe.

ANDREWS OBJECTS TO CHURCH HYMN

He Says "Oh, To Be Nothing, Nothing," is Characteristic of the Buddhist Belief.

Chicago, Ill., August 20.—Chancellor E. Benjamin Andrews of the University of Nebraska, who is giving a course of lectures at the University of Chicago, and is the regularly appointed university preacher for the present month at the Midway institution has found a hymn which he classes along with the one Professor Oscar L. Triggs recently discovered, and declared unfit for Christian people to sing. The particular hymn which Dr. Andrews has denounced is the one beginning "Oh, to be nothing, nothing," and the reason he takes exception to it is that he thinks it impious, and better suited to the Buddhist than the Christian.

"No true Christian," he said, "really wants to do nothing. That is the regular and proper prayer of the Buddhist. Let us try to cultivate humility, but let us not in the attempt, use any language that is impious and atheistic. We are not intended to be willless and soulless. We are called to be a personality, in the likeness and image of God."

DEATH OF J. M. WARR

John E. Kay left this morning for Travers City, Iowa, being called there by the death of his father-in-law, J. M. Warr, which occurred yesterday. Mr. Kay has been at her father's bedside for the last two weeks. Mr. Warr was seventy-nine years of age and was one of the early settlers in this city, having come here to live in 1853. He was a member of the old volunteer fire department when they had hand engines. In 1859 he settled on a farm near Center and resided there for many years. He was related to J. A. Tice of this city and still has numerous friends living here. He will be buried at Travers City.

CHILDREN WEEP OVER MOTHER'S BODY; SAD DEATH OF A KAUKAUNA WOMAN

Husband Returns Home and Finds His Wife Dead on the Floor—Babies Had Nothing to Eat.

Kaukauna, Wis., August 20.—The story in regard to the death of Mrs. P. H. O'Malley and the finding of her body with her two weeping children at her side by the bereft parent is a most pathetic one.

Mr. O'Malley, who is a brakeman employed on the Ashland division of the North-Western railroad, left on Sunday afternoon at 1:45 o'clock and on his return yesterday morning at 1:30 o'clock he found the dead body of his wife lying face down on the sitting room floor, partly dressed, and by her side the two children, where they had apparently cried themselves to sleep.

Everything goes to show that Mrs. O'Malley had been dead from early Sunday morning until the time she was discovered by her husband.

How the two children, one aged 3 years and the other only thirteen months, could have subsisted is only imagined by the fact that the remains of partly eaten peaches were lying around the dead body of the woman. The peaches seem to have been the only thing they found to eat.

Leonard Scheunr, who served the family milk was there just at night Sunday and found the oldest one crying bitterly, but went away again, leaving his milk on the stoop in its usual place without going into the house.

The coroner's jury rendered a verdict last evening of death from unknown causes. Death is supposed to have occurred from apoplexy. Her age was about twenty-eight years.

ORDER SQUADRON TO START SOUTH

North Atlantic Fleet May Be Needed in South America.

CRISIS AT PANAMA

European Cruisers Will Rendezvous Off the Isthmus—U. S. Must Be Protected.

IOWA READY TO SAIL

Washington, Aug. 20.—In view of the continued troubles at the Isthmus of Panama and the certainty that the cruisers of European nations will rendezvous in force off the isthmus, the Navy Department has ordered the North Atlantic squadron to move south toward Hampton Roads. The State Department and the Navy Department do not, of course, proclaim officially that this important movement of the squadron at this interesting juncture is for the specific purpose of meeting the European warships. It is evident from the midnight work of the State and Navy Departments last night that it is now considered of vital importance that the United States appear in great force off the Isthmus. This government is taking precaution without regard to any representations that may be made by Colombia, Venezuela or Nicaragua. Its object primarily is with reference to what may be expected of European warships when they arrive at Panama. The State Department clearly foresees that, though American consular and diplomatic officers may be instructed to confine European marines to the protection of individual interests, there may arise complications of more importance than those which arose in China when the international alliance went ashore. The State Department is determined that Colombia or Venezuela shall not be put in the position of making treaty terms with Germany, Great Britain or France which can in any way impair the validity and exclusiveness of this government's obligations to sustain Colombia and to uphold the Monroe doctrine on the Isthmus and the republics named. The Navy Department Intelligence Office has not been able to ascertain precisely what naval movements are contemplated by Germany and Great Britain. It is expected, however, from informal information that Germany will send three if not more cruisers to the Isthmus and that Great Britain will send as many more. It is believed that as it has been announced that Germany intends to send more than one ship, France will respond with orders for the re-inforcement of the Su-ehet now at Colon and practically master of the situation, so far as the ability to go ashore is concerned. The Colombian minister was at the State Department part of the day. He assured Secretary Hay of the ability of Colombia to maintain peace on the Isthmus. Later in the day, however, the news developed that the North Atlantic Squadron would move south where it can be in readiness to be sent promptly to the Isthmus.

IOWA IS READY TO SAIL

San Francisco, Aug. 20.—The battleship Iowa has taken on coal and ammunition and is expected to sail today direct for Panama. The Ranger is now en route to the same port, but on account of her slowness she will not reach Panama until after the Iowa arrives there. These vessels will protect American interests on the western side of the Isthmus.

Number of Victims 42.

Victoria, August 20.—The number of victims of the Islander disaster, according to late reports, has been placed at forty-two. The pilot and officers of the Islander deny that either the captain or the pilot was intoxicated and claim that the vessel was well supplied with life belts.

GREAT ACTIVITY IN LIVE STOCK MARKET

Prices Firm at Milton, and Local Buyers Are Paying \$5.50 for the Best Hogs.

THE GAZETTE AGENCY,
W. W. CLARKE, Manager.
Milton, Aug. 20.—There is considerable activity in the live stock market here but in the hog line the offerings are not the best grade and not as desirable as at other seasons of the year. Prices are firm and local buyers are paying \$5.50 for the best. Carload shipments for the week include one car of baled straw and one each of barley by E. L. Barnes and one each of tobacco by F. G. Borden and Hoffman Brothers. Dunn, Boss & Co. received a car of flour and T. A. Saunders four of lumber and coal.

The lightning burnt out a large number of telephones here and at Milton Junction on Sunday.

H. C. Risdon and Clara Wells are back from the harvest fields of the west.

Prof. Shaw and wife left on Monday for the Pan-American and to attend the S. D. B. General conference.

Ex-Postmaster T. L. Martin of Wilton, made us a pleasant call on Monday.

Mrs. C. M. Morse of Chicago is the guest of Mr. and Mrs. E. D. Bliss and other friends, who are glad of an opportunity to meet "Lide."

CLINTON.

Clinton, Aug. 19.—Last Thursday was a red letter day for the W. C. T. U., which were entertained by Mr. and Mrs. T. H. Cleland. After a very interesting program in which Mrs. Curtis told of the work in the temperance line in Japan, a fine supper was served on the lawn. Several gentlemen were present. The presence of Rev. and Mrs. Curtis was an inspiration. Just before the departure of the guests, Mrs. Chas. Dresser, in a very appropriate manner presented to Mr. Curtis a beautiful bouquet and a small reminder that it was his birthday, which came as a complete surprise.

Tuesday evening the young people of the Baptist church served ice cream on Mr. Churchill's lawn which was nicely illuminated. The Clinton band was present and favored the large company with several selections. Mrs. Inman, Mrs. Churchill and Miss Ames each sang a solo. The evening was particularly fine and the receipts were very satisfactory.

Mr. George Florida began harvesting his large crop of tobacco last Wednesday. It is of poor quality, not being injured either by wind or hail.

The latest acquisition in the vehicle line is owned by Master Foster Winnegar which consists of a two wheeled trap, purchased in Delavan, drawn by a beautiful black pony, "Cuba."

The missionary tea meeting held at Mr. and Mrs. Soolin Cooper's last Friday was unusually well attended. A fine program was listened to after which supper was served on the lawn to the large company.

Mrs. S. J. Simmons will soon reside with her son, L. L. Simmons and family and Mr. and Mrs. Herron will occupy her house.

Mr. H. C. Ellis of Freeport

AFTON.

Afton, Aug. 20.—The Modern Woodmen of Afton Camp 2192, held their annual picnic on Wednesday, the 28th inst., in W. J. Miller's grove, just south of the public school building. Arrangements for the affair will be perfected by a special committee consisting of Peter Drafiak, J. B. Humphrey and William Brinkman. The picnic held by Afton camp have always been very pleasurable affairs and it is safe to predict that the one for 1901 will be no exception to this rule.

George C. Antsdel sold a nice bunch of pigs to Michael Dawson last week. There were nine in the drove, five months and twenty days old, and they averaged 190 pounds in weight.

Rev. Howland Hanson occupied the Baptist pulpit here last Sunday evening and this will be his last service here as he plans to resume work in his own church next Sunday evening.

It is expected that work will soon commence on the new steel bridge that will span Bass creek at this place. In anticipation of the removal of the old bridge a gang of men have been fixing up a roadway at the mill dam to accommodate the traffic.

Mrs. E. J. Antsdel and son, Orley, will leave tomorrow for an eastern trip which will include a visit among relatives in New York and a view of the Pan-American wonders at Buffalo.

Miss Ora M. Smith of Janesville spent Sunday with friends in Afton.

Fred E. Arnold and family are enjoying a visit with friends at Brownville, Iowa.

OPENING DAY OF THE BELOIT FAIR

Horses and Horsemen from All Over the Country Are Present—Tomorrow Janesville Day

Beloit, Wis., Aug. 20.—All is in readiness for the first annual meeting of the Beloit fair and Driving Association. \$24,000 are to be given away and horses and horsemen from all over the country are here. In a private trial this morning two horses went the full mile in less than 2:10 and much faster time is expected in the races. What promises to be one of the features of the speed program for the week is the mixed race on Thursday of Beloit horses for a purse of \$200. A hot tip is out that several horses are to do the course in better than 2:12, and much money will be laid out on the event.

From present indications "all the world and his wife will attend the fair," and they will get their money's worth. Acres of canvas have gone up to shelter hundreds of booths, side shows, "fakes," merry-go-rounds, etc., etc. A bleacher has been erected that will seat 500 people. The grand stand will seat 1,500.

Today is children's day and the music is furnished by the High school band. Tomorrow is Janesville day and the Imperial band of Janesville will play. Thursday is Beloit day and the Rockford Regimental band will furnish the music.

Friday is Monroe and Brodhead day and the Monroe band will discourse the melody. There will be a night fair with various attractions each evening.

H. D. McKinney of Janesville says the grounds are the nearest approach to the ideal he ever saw and he especially commends the track. The officers of the association are: A. J. Lovejoy, president; J. N. Chamberlin, vice president; George H. Cram, general superintendent; D. H. Pollock, secretary; C. A. Gault, assistant secretary; B. P. Eldred, treasurer.

Beloit, Wis., Aug. 20.—A meeting was held last night for the purpose of organizing a council of the Knights of Columbus, a purely fraternal order composed of Catholics. Rev. Father Ward, Dr. D. R. Connell and P. H. Meehan are named as the committee on organization.

Twenty policemen have been sworn in in Winnebago county to do duty during the fair.

Capt. Rosman, of Co. L, First Regiment W. N. G., is extremely well pleased with the showing made by the company at Camp Douglas. He was highly complimented by prominent officials. Three members of the company secured places on the regimental team of fifteen men who will compete with other regimental teams at Camp Douglas the second week in September.

The prize winning forester's team of the M. W. A. camp, 1907, of this city, were feted at the lodge hall Friday night last. The affair was preceded by an exhibition drill in which the team showed up excellently. The team won the \$100 prize at Rock Island recently.

Football prospects for the season of 1901 at Beloit college are bright. The team lost several good players by graduation last year, but there are four or five promising men for every vacant place and the working squad will be the largest in the history of the team. A partial schedule which has been arranged gives us games with Cornell, Wisconsin, Notre Dame, Kansas, Chicago, Northwestern, Michigan and Milwaukee Medics.

Eruptions

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and to strengthen it against their return.

Hood's Sarsaparilla permanently cured J. G. Hines, Franks, Ill., of eczema, from which he had suffered for some time; and Miss Alvina Walter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of this great medicine than can be published.

LATE TELEGRAPHIC NEWS

READ OUT OF THE UNION

Ban Formally Declared on South Chicago Men.

SHAFFER MAKES STATEMENT.

If They Strike at This Late Date They Must Stand Alone, Says the Leader—Trust Resumes Operation of Four More Mills.

Pittsburg, Pa., Aug. 20.—In a statement issued here President Shaffer of the Amalgamated association makes the announcement that the steelworkers who have remained at work in South Chicago are outside the organization and that the union has no further interest in their actions. He says that if they decide to strike at this late date they will do so on their own responsibility and that whether they remain at work or close the mills is now a matter of indifference to the national body. The statement in full is as follows: "Mr. Tighe, who has returned from the west, has reported nothing not already published. The Chicago mill men who remained at work are no longer members of the organization. They are not entitled to a trial and will have none. They are at liberty to act as they see fit now, but if they go out they will do so on their own responsibility. We will do nothing about the matter from this time. On the whole the strike is going very well. We are getting out more men every day, and will continue to do so. The fight is hardly begun yet. There will be plenty of trouble for the trust before long if they keep on in their present course. There has been no effort on anyone's part toward peace, and there will be none on our part again. As to the situation in Duquesne, all I can say is that there has been no strike ordered in that mill as yet. I said last week that when we were ready that mill would be attended to."

Four mills of the United States Steel corporation have been put in operation, the resumption being the most severe blow so far suffered by the strikers. Laborers imported from the south enabled the corporation to again put its furnaces in blast. The mills placed in operation to-day were two of the Painter and one of the Clark plant, and there was a partial resumption of work in the Monessen mills. There was some disorder in the streets of Monessen during the day, but the local police never lost control of the demonstrative crowds and no serious trouble ensued.

LEADERS ARE ACCUSED.

South Chicago Officers Charged with Accepting Steel Trust Money.

Chicago, Aug. 20.—With the steel workers of Joliet and Bay View out on strike and the union men of Chicago and the country at large hurling innuendoes and epithets upon the steel workers of South Chicago for failure to join the movement the situation at the South Chicago mills is becoming critical. Yesterday it was expected that something would be done toward clarifying the atmosphere and determining what, if any, action would be taken. Instead the members of Lakeside and Commercial lodges, whose charters in the Amalgamated association were recently revoked, abandoned the regular meeting scheduled for Commercial lodge and escaped the gaze of the curious by remaining in their homes or seeking the solitude of Mud lake to fish.

Davis Argues for Strike.

That they are not to be allowed to drift on in the present way to the advantage of the company without another appeal from the Amalgamated association is shown by the movements of Vice-President W. C. Davis, who has returned to his home in South Chicago to do missionary work with the men individually. Belief is still expressed that his arguments, together with the taunts of trades unionists, will result in the rank and file taking the initiative in the face of the opposition of the older men and officers of the lodges.

Scheme of Anti-Strike Leaders.

A rumor—and there are many—in South Chicago these days—has it that yesterday's meeting was abandoned through a prearranged plan of certain leaders of the anti-strike element and that decisive action may follow at a meeting to be held next Sunday, when the anti-strikers will have to prove their strength or face a walkout.

Secretary Michael Tighe and Vice-President Davis addressed a monster meeting of loyal Amalgamated men at East Chicago yesterday. The men are employed in independent mills where there is no strike and a large delegation of citizens joined them in crowding the local opera house to welcome the strike leaders of the fourth district. Later the steel workers went into executive session, listened to confidential reports of the progress of the strike and adopted the following resolutions:

Condemn South Chicago Men.

"Whereas, Lakeside lodge No. 9, and Commercial lodge No. 14, of the Amalgamated Association of Iron, Steel and Tin Workers, located at South Chicago, have refused to obey the call of President Shaffer to strike; and

"Whereas, By deserting the association in time of need they have violated their solemn obligations to their fellow workmen; therefore,

"Resolved, That Lake lodge No. 2 and Emlyn lodge No. 23, of East Chicago, in joint meeting assembled, heartily endorse President Shaffer's action in revoking the charters of said lodges, and we pledge him our undivided support in such action; and,

"Resolved, That we will in no way associate with the former members of Lakeside and Commercial lodges, and that we brand them as deserters from the Amalgamated association."

Unit for Recognition. In addition the members of the two lodges received a scoring at the hands of organized labor of all classes as represented in the Chicago Federation of Labor. After a long discussion a resolution presented by President J. H. Bowman was adopted. It referred to the action of the steel men as "having refused to obey the order of their president to strike in support of their brethren who are fighting the billion-dollar steel trust, pleading as an excuse for their action the existence of a contract with the said trust," and denounced the South Chicago workers as "unfit for the recognition or support of union men."

Breath Probable at South Chicago.

Other organizations have expressed similar sentiments and there is a movement on foot to hold a union mass meeting in South Chicago to protest against the stand taken by the local steel workers. With the development of the strike, a decided change is noticeable in sentiment and even those who urged the South Chicago men to remain at work are now criticizing them and impugn their motives. All this has goaded the local men to desperation. Now that prospects of success are brightening and they are confronted with the possibility of being thrown out of work if the strike is won, there is probability of a general break to the strike ranks regardless of the sentiment of leaders.

First Bloodshed at Cleveland.

Cleveland, O., Aug. 20.—The first scene of bloodshed in the local strike of the Amalgamated Association was at the Crescent mills last night, when two of the special policemen and a crowd of pickets clashed.

One of the pickets received a severe scalp wound and possibly a fractured skull while another was struck on the arm with a club and will be compelled to carry that member in a sling for several days.

The fight occurred at 6 o'clock in Bessemer avenue, a short distance from the mills, and before it was finished was carried to the entrance of the mill itself, and required the intervention of Superintendent Button before the hostilities were suspended.

The attack and the repulse were bitter.

Sheriff Called to Wellsville.

Wellsville, O., Aug. 20.—Sheriff Noradon has been asked to hurry to Wellsville from Lisbon and to bring deputies with him.

The situation is critical. Mill managers say that they will call for the protection of the militia.

Seven Are Now Dead.

Youngstown, O., Aug. 20.—Seven of fourteen men injured by an explosion of molten metal in the blast furnace department of the Ohio plant of the National Steel company are dead. Their names are: Richard Richards, John Cruikshank, Mike Jorinka, Andy Kahut, Mike O'Brien, Joseph Bugos, George Malnik. Two others of the injured are in a very serious condition. The accident was caused by the machinery which handles the hot metal not working properly.

Stock Barren in Vegetables.

Chicago, Aug. 20.—"Much bargaining, but no increase in sales," is the way in which fruit and vegetable dealers in the Haymarket square and in South Water street describe the present market situation. High prices in vegetables and fruit have brought on a bargain hunt among the small dealers and restaurant keepers, who are obliged to furnish the produce at the old prices.

OHIO RIVER STEAMER LOST

Twenty Passengers Drown; No Chance to Escape.

STORM STRIKES SUDDENLY.

The "Rocket City of Goldconda at Crowell's Landing, Six Miles from Paducah, Turns Over and Sinks Instantly in Ten Feet of Water.

Paducah, Ky., Aug. 20.—The steamboat City of Goldconda was struck by a squall at Crowell's Landing at 7 o'clock last evening, overturned, and sunk in ten feet of water. Twenty persons were drowned, ten of them women. The City of Goldconda plies between Paducah and Elizabethtown, Ill. It left the latter point at 1 o'clock in the afternoon with seventy-five passengers and a cargo of live stock and grain. The steamer had arrived at Crowell's Landing and the deckhands were preparing to make fast to the wharf when the storm struck without warning. Most of the passengers were in the cabin at supper, and many had no chance to escape. The steamer trembled an instant, then turned over on its side and sank in deep water. It is declared that the disaster might have been averted but for the action of the engineer, who abandoned his engines when the squall struck and rushed to the cabin to save his wife. With no one at the engines, Captain Bauer was unable to turn the steamboat's head into the wind. The boat in consequence received the full force of the squall broadside.

Among those reported lost are: Mrs. David Adams and niece, Lucy Barnett, Smithland; Watts Davis, stockman, of Livingston county, Ky.; Lizzie Graham, of Paducah, Ky.; Tricie Grimes, Grahamville, Ky.; Mrs. Lon Hogan and three children, of Paducah, Ky.; Charles Slayton, Lola, Ky.; two women, names unknown, Smithland, Ky.; three deck hands, two traveling men, St. Louis, names unknown; two peddlers, names unknown.

Captain Bauer, who arrived here two hours after the catastrophe, said: "The boat was getting ready to land when the squall struck it and it listed. Several passengers on the inside jumped overboard and were caught by the boat. The women, all of whom were in the cabin, could not be reached. The boat settled down in ten feet of water over a reef and two of the men who were in the cabin—H. E. Worter and H. S. Quartermaster of Hampton—broke through the glass and were saved. A yawl that had broken loose was caught by some of those struggling in the water and taken to the bank. We returned to the boat on this, but could find no signs of life and returned to shore."

When news of the disaster reached Paducah the steamer Mary N. started immediately for Crowell's Landing in the hope of picking up some of the passengers. The Mary N. returned late at night. No more survivors were picked up and none of the bodies were recovered, as it was impossible to get into the ship's cabin.

Shoots to Spare and Kills.

Chicago, Aug. 20.—A group of five youths, none over 21 years old, was shot into at midnight and one, Henry Zeigelmeier, was killed, by Pebel Phlaepka, a saloonkeeper at 55 West 21st street. Two others were wounded, one of whom may die. The saloonkeeper charged that they had cut a pool table cover into ribbons and turned the contents of a whisky barrel upon the floor. Fearing that they had designs upon his cash box, Phlaepka followed them to the door, and, as he told the policeman who arrested him, only intended firing the bullets into the air for the purpose of frightening the boys away.

Kodol

Digests what you Eat

Dyspepsia Cure

In speaking of indigestion, Dr. Lewis says: "It is deplorable that so many hundreds of thousands of Americans suffer from indigestion. It means that the blood of the nation is becoming impure; for undigested food poisons the blood. Unless a method is devised for overcoming this malady, our race must deteriorate." Many persons use soda tablets to neutralize fermenting food; this only makes a chemical receptacle out of the stomach, and injures its sensitive structures. Others feed on pepsin, which is better, but not sufficient, for it digests only albuminous foods. The preparation best fitted to relieve and absolutely cure indigestion is KODOL DYSPEPSIA CURE. It contains every known digestant and digests every kind of food. Its use is a common sense method of treating all stomach troubles, and the results are always certain.

WISCONSIN WEATHER FORECAST
Generally fair tonight and Wednesday.

SOUND TO THE CORE

The declaration of principles set forth by a majority of the republicans in the last legislature is sound to the core, and will be heartily endorsed by loyal republicans throughout the state.

The time is ripe for this movement, and the future welfare of the party is the issue. It is not a question of Governor La Follette's renomination or the ambition of any other candidate. It is not an office seekers' nor an office holders' organization.

The republican league is organized by a majority of the republicans of the last legislature, who sat patiently through four months of an administration whose sole and only ambition was to pass a primary election law that was destitute of either common sense or merit.

The discussions and final failure of this erratic measure, resulted in removing the mask and exposing to the people of the state the skeleton named reform.

Wisconsin has not yet reached a point where she is willing to abandon conservative common sense for populism and revolution. The democratic party tried the experiment with Bryan and free silver and it cost the party 75,000 votes.

The republican party has no intention of losing control of the state to gratify the theoretical whims of a few men who care more for personal ambition than party perpetuity.

Governor La Follette may be perfectly honest in his intentions. So was Bryan and Debs and Coxey, and a score of other leaders that have long since been pronounced dangerous.

Political parties have but little use for men who outgrow their party, and assume to possess more wisdom than the party that placed them in power.

Governor La Follette is destitute of advisors, because he has no use for advice. He has said repeatedly by word and action, if you don't endorse my methods, don't annoy me. His sublime conceit causes him to believe that his personal popularity carried the state by 100,000, when the fact is that his personal following was represented by the 14,000 voters who bolted the ticket two years ago.

The republican party believes in wholesale reform. It believes the governor has made some serious mistakes, for which it is willing to forgive him, if he will commence the work of reform at home, and get into line as a loyal republican. His political future is entirely in his own hands. He is the honored servant of a great state, placed in power by the republican party, who are responsible for his public acts.

The republican league, expressing the republican sentiment of the state, says: We are not satisfied with your methods. It remains for the governor to heed the warning and get in line.

GEORGE W. BISHOP.
The resignation of George W. Bishop from the State Board of Control will not be a surprise to the superintendents of the various state institutions or to others who are well acquainted with the man. Governor Scofield appointed him under political pressure, admitting at the time that it was against his judgment. He lacked every qualification necessary to the dignity and efficiency of the position.

He was willing to do Governor La Follette's dirty work under the guise of reform in the state institutions, because he is that kind of a politician. The Board has lost nothing by his resignation, and the governor has gained complete control. The venerable president is already with him and with two men of his own appointing, he will be able to make a clean sweep, and no questions asked. Mr. Bishop was originally a Bradford man, when that gentleman resigned, he made a mad rush for the loaded wagon. He is a political trimmer of pronounced type, and it will be no fault of his if he is not speedily enrolled as a prominent worker in the new republican league. The party has a few barnacles of the Bishop type, that should be permitted to remain in the half breed camp.

Dr. Andrews has taken a very popular view of the question of lying. His statement that "veracity is not

merely a statement of facts, nor is it a lie, a statement of that which is not true, a bad intention is necessary to constitute a lack of veracity." It is another way of stating "the end justified the means." There are justifiable exceptions to the mere statement of facts, but they should be extraordinary.

Today science is taking up the study of evolution of cooking and preparation of food and tracing the physiological and chemical laws. In this line of work it is practice that makes perfect, and the discipline of failure is more necessary than the blackboard drill. It is better for a girl to practice under the direction of a teacher who can tell her how and why than blindly try to imitate mother, at the expense of the family digestion. A knowledge of chemistry will give the girl the reason why, which so few mothers know, and will prevent many common mistakes which are made in the preparation of food. As a single example take the broiling of a piece of steak. How many cooks try to keep the juices in the meat rather than fry them away to a cinder and smoke? Dip your steak in boiling water for an instant and then broil it, and when the knife separates the fibers the juice will follow it in a stream. Why? Hot water coagulates the albumen on the surface into a water tight sack enclosing the meat, and its juices, which cannot escape during the cooking, and not until the carver penetrates this sack at the table. This is one single instance of a bit of chemistry which has increased the value of a pound of meat one-third both in taste and ease of digestion. Other examples could be cited ad infinitum. Our domestic arts department are sure to revolutionize the art of eating and should be encouraged in every possible way.

Help Him Out.

Nils P. Haugen has an undoubted right as a private citizen to express his opinion of Senator Spooner however unpopular his opinion may be, but Nils P. Haugen of the State Tax Commission is not a private citizen, and when he prostitutes the office he should be removed.

If in his utterances, he is talking for the administration, as appears to be the case, he has cleared the atmosphere of some of the fog that has been floating about under the guise of harmony. If the governor is short of rope, Haugen can help him out. The easiest political death yet discovered is suicide. It attracts but little commotion and elicits the sympathy of but few mourners. The governor is on the right track and has already passed the point where he can pose as a martyr.

It is perfectly natural that Bryan should favor the steel strike. Any man that can make himself believe that fifty cents is a dollar don't have far to travel to argue that contracts are not sacred. Mr. Bryan is playing for the labor vote in 1894. He will be a presidential candidate, but the ticket won't be called democratic.

The Amalgamated association may succeed in closing a few plants temporarily, but defeat will be the final result, because there is neither justice nor common sense in the demands made, and public opinion is not in sympathy. President Schaffer may have been a good preacher, but he is an unwise and dangerous agitator.

There are very few cities that can boast of a common council like the one in Janesville. The Milwaukee road will have a freight depot on North Main street, and nobody will be injured, but the aldermen, and the tax payers who are called upon to pay the costs of useless litigation.

Sir Thomas Lipton has crossed the ocean with the fastest boat ever sent to compete for the cup. It is to be a race between an individual and the New York Yacht Club. The club's action in regard to the independence robs the race of its international character.

Russell Sage has given a ride and a picnic to several hundred New York children, but he has done this before, so there need be no alarm as to his mental condition.

Something to Live Up To.
William Shakespeare, Jr., is a manufacturer of fishing tackle in Kalamazoo, Mich. Hamlet says: "A man may fish with the worm that hath eat of a king, and eat of the fish that hath eat of that worm." But what is that to William Shakespeare, Jr., of Kalamazoo? He makes trick hooks that require no worm.—New York Press.

FURTHER RISE IN PRICE OF PEACHES

The Crop in Michigan Will Be Only One-Fourth of the Regular Harvest, It Is Said.

Another piece of bad news was received by local grocers today. It means a still further rise in the price of peaches, although it will not be large.

Reports considered from authentic sources say that the crop of peaches in Michigan will this year be only one-fourth of the regular harvest. This report is supposed to come from every part of the famous fruit belt in Michigan. There will be a slight rise probably in a few days, but this will not be very large, as peaches are quite high now and the main portion of the crop will be in soon.

The same report has it that practically no peaches are to come from Michigan, and but few apples. Both have been a failure much more than was expected. Melons there are also light and are selling in some instances for four times as much as they did last year at a corresponding time.

A few weeks ago the growers across the lake predicted that the berry crop failure would be made up by an abundance of peaches, but this is contradicted now by the report just received. It was never supposed at any time this season, according to the merchants, that the peach would sell as low this year as has been the case in former years, because the expectations were that the peaches would be much better in quality and size than last year or for many years before, and would make up for the better price.

There is now little doubt that peaches will remain at higher figures than was the expectations of the most careful buyer.

BOY IS BITTEN IN FACE BY A DOG

Horrible and Disfiguring Injuries inflicted Upon Little Kenneth Wells, Son of Norton Wells.

Little Kenneth Wells, the two-year old son of Mr. and Mrs. Norton Wells, has suffered a severe accident the marks of which he will carry all his life. He was savagely bitten in the face by a dog and the injuries inflicted are quite horrible. Mrs. Wells and her two children have been spending the summer at Orfordville for the benefit of Mrs. Wells' health. At the home where they are staying there is a large shepherd dog which has never been used to children and dislikes them.

The dog and the children were kept apart successfully until a few days ago. The children have been accustomed to dogs and are very fond of them. It is supposed that Master Kenneth tried to make friends with the dog and grabbed him around the neck and tried to hug him. The dog grabbed the boy in the face. His upper teeth tore the flesh open to the bone and so savage was the bite that even the cheek bone was injured. This wide, deep gash is about an inch below the eye and is the most serious wound, although the little fellow's cheek bears several other wounds made by the sharp teeth. The gash was sewed up, but the wound mattered so terribly that it became necessary to take out the stitches. The edges of the wound are still separated to the bone. The little fellow's condition is quite serious and he suffers a great deal.

Mrs. Wells, who has been in poor health for some time past is not improving as rapidly as her friends would wish. This sad accident to her little son has been a severe shock to her and to the boy's father as well. It is hoped that Master Kenneth will recover speedily from all effects of the accident.

EXPECT TO MOVE IN LIBRARY MATTERS

Some of the Members of the Board Are Anxious to Begin Work This Fall.

Library matters are practically at a standstill at the present so far as anything local is concerned but now that all of the members of the library board, with exception of Mrs. A. P. Lovejoy, have returned from their vacations, the ball will be set moving as rapidly as possible. Mrs. Lovejoy is at her summer home at Lake Geneva and will return to this city for a meeting of the library board whenever notified.

William Bladen, president of the board, expects to call a meeting in the very near future so that all members of the board may understand just exactly how matters stand and what prospect there is for doing anything definite towards building this fall. Some of the members of the board are anxious to begin the work this fall and get as much as possible done, while others think the wisest way will be to wait until next spring and then push the work rapidly. Members of the board who have been out of the city for several weeks this summer do not know just what has been done, and is being done regarding the plans and they are anxious to get in touch with library affairs again. Those who have taken charge of the work during the summer are no less eager for some definite decision regarding the plans.

It is understood that Architect Jennings is not only at work on plans for a one story building according to the instructions which were given him at a recent board meeting, but he is also busy cutting down the original plans in an attempt to bring them within the appropriation. As soon as they are ready the board will consider the original plans, as modified and the new plans for the one story building. Members of the library board are evidently as divided in their opinion as is the public generally and there is no certainty as to what kind of

a building, the board will finally decide upon.

Most of the members desire to keep within the appropriation and to erect a building the current expenses of which will not be too heavy a burden. The outcome of the present undecided state of affairs is awaited with a great deal of interest.

REPORT TO THE PHARMACY BOARD

Sixty-Seven Cases of Poisoning in the State Last Year—Carbolic Acid Heads the List.

The state board of pharmacy licensed sixteen new druggists at its meeting at La Crosse. Four cases were reported to the board and the attorneys of the board were instructed to prosecute each case without any exception.

Secretary Helmstreet presented the annual report to the Governor showing six meetings held last year, at which 307 took the examination, twenty-three licentiate and sixty-seven assistant certificates being granted. Two hundred and seventeen were rejected. Five cases were taken into the courts last year in which the board was successful in every case. Twelve pharmacists have died during the year.

There were sixty-seven cases of poisoning in Wisconsin the past year, resulting in fifty-two deaths. The list is headed with carbolic acid, 34; none recovered; opium 4 dead, 4 recovered. There has been no case of poisoning by error of a pharmacist in Wisconsin the past year. There are 1,428 first grade and 385 assistant pharmacists in Wisconsin. Some ninety-four have failed to pay their registration and their certificates will be revoked if not paid by September 1.

The next meeting of the board for examinations will be held in West Superior October 16 and 17.

M'SHANE'S SALOON SHOOTING AFFAIR

Matt Ryan and a Bartender for Fred Lutz, Make a Target of the Front Window.

A malicious shooting affair, the outcome of a drunken row, took place about 11:30 o'clock last evening on West Milwaukee street, Milwaukee street.

Matt Ryan, bartender for M. M. Fardy and a bartender for Fred Lutz, were in Patrick McShane's saloon on West Milwaukee street about eleven o'clock. Frank McShane was in charge of the place and when eleven o'clock came he told the young men they would have to leave. Both of them had been drinking and refused to go. McShane, after arguing with them for a while, pushed them out the door and locked it after them.

The two men were incensed over this and went over to Lutz's saloon where Lutz's bartender secured a revolver. They went back to McShane's and tried to get in but could not. This made them hot and Lutz's bartender cut loose with his gun. The bullet struck the lower left hand corner of the large front window going through the window and burying itself in the woodwork back of the bar without doing any further injury. The party that did the shooting and his friend were hustled out of the way before the police arrived. Chief Hogan has secured a warrant for their arrest and they will be given a chance to explain their actions to Judge Fifield.

COWARDLY TRICK OF SOME MISCREANT

Joseph Hutter Lost Two Valuable Dogs Today by Poison—It Was an Outrage.

Joseph Hutter lost two valuable dogs today by the cowardly trick of some miscreant in whom brutality has taken the place of soul and conscience. Both dogs, one a beagle hound and the other an English pointer died in terrible agony from the effects of strychnine. The beagle was the first victim and the pointer died about 2:30 o'clock this afternoon after everything possible had been done to counteract the poison.

Mr. Hutter is an up-olsterer who lives in his shop at 14 North Franklin street. He lives alone save for his dogs who are his constant companions. His dogs are not curs but are fine dogs of excellent breeding and a nuisance to no one. They are all noble animals, almost human in intelligence because they are such close friends with their master. The two which are dead are especially knowing and valuable and were prized highly for their money value as well as for their faithfulness and affection for their master. They bothered no one unless it might have been in protection of their master's property and interests and it is a crying shame that such noble animals should come to such an untimely death in such a cruel manner.

It is more than a shame, it is an outrage. The man who poisons another man's property steals from him more than he took from his purse for money cannot repay the loss. More than that he shows himself lacking in all humanity for no person could doom any living being to suffer the tortures which precede death by poison. The poisoning of dogs has become altogether too frequent lately and although the law cannot inflict its punishment for such a crime, those who are guilty should be prosecuted. But his cowardice as well as his brutality is shown in the underhanded method he takes and he generally escapes unscathed.

Crazy Man in the First Ward.

Officer Brown and Under-Sheriff Cochran spent considerable time last night in the First ward, looking for a man who was alarming the residents of that ward by his queer actions. He seemed to be crazy, and is described as going about yelling and pulling his hair. The officers were unable to locate him after making a thorough search of that part of the city. They are inclined to believe that he was someone with a festive gag on.

TRIAL OF O'ROURKE AND DOUGHERTY

The Prisoners Testify in Their Own Behalf—Record of the Two Men in Court Today.

The trial of O'Rourke and Dougherty for robbing Bert Nehms, was continued in the municipal court this morning. Officer Fred Benke testified to arresting O'Rourke and Dougherty at the Northwestern station and taking them down to the lock-up. He searched the men and found five cents in Dougherty's pocket. He did not tell them that they would be turned loose if they did not have the pocket book.

William Denning, Henry Hanson and Thomas Madden were called by the state and testified to being with Cullen and Nehms in the court house park on the night of July third and that Cullen and Nehms were sober at that time.

J. L. Mahoney addressed the jury and outlined his case for the defense which is a general denial of the charge. He stated that if the complaining witnesses' testimony was correct then O'Rourke and Dougherty were guilty of perjury.

Dougherty and O'Rourke testified to being around town at different points during the afternoon and evening of July third. They visited several saloons and had a few drinks. After the saloons had closed at night they went to Schmidley's restaurant and bought some sandwiches and went to the Fourth Ward park to eat them. It was about twelve o'clock when they were at the park and there were six or eight people in different parts of the park.

They ate their sandwiches and then Dougherty went home to change his shoes as he had on a new pair that hurt him. After Dougherty came back he and O'Rourke left the park and came up town. They went up to Lutz's saloon and tried to get in the side door to get a drink but could not get in.

While there a man, as they claim, was under the influence of liquor, came along and said: "Can't you get on fellows?" They told him no and went away over to McShane's and tried to get in there but could not.

They then went on up to O'Rourke's house in the First ward and laid down on the floor until daylight when they walked down to the Northwestern passenger station and were arrested by Officer Benke and taken to the lock-up. They claimed they were sober when they were locked up but got hold of a bottle of whiskey and got drunk after they were locked up. They denied seeing Nehms or Cullen or taking any money from them.

Cross examination developed that O'Rourke had lived in Janesville for twenty-four years, during which time he was in the reform school at Waukesha from 1877 to 1881 and was fifteen years old when he was released.

In 1888 he served six months in the county jail for larceny. In 1895 one year in state's prison for larceny from the person and on February 26, 1900, he again went to the pen for one year for receiving stolen property. He has been arrested a number of times for being intoxicated.

Dougherty was convicted in 1885 for assault and in 1888 skipped out to the Black Hills where he stayed for four years to keep from being arrested for larceny. When he returned the witness against him had left and the case was dropped. Both of them claim to work when they get a chance but are given a bad reputation by the police.

Men Who Can Be Influenced.
In nearly every community, about every capital, state or national, you will find men who are capable of being influenced. This is especially true of new communities through which a railway is being built. It has always been so, and will be, so long as time expires—I mean the time of an annual pass.—Cy Warman, in Lippincott.

J. H. Nicholson and wife left this morning on an extended drive through the surrounding country. Mr. Nicholson will combine business with pleasure as this is one of his customary trips which he makes by train as a rule. They expect to return home Saturday evening.

Fred Kinney, a former resident of this city and son of J. H. Kinney, who for many years was a prominent citizen here, is now a United States bank examiner with headquarters at New Orleans. Mr. Kinney received his appointment from Comptroller of the Treasury Dawes. The position is one of high trust and responsibility and carries with it a salary of \$10,000 a year. It is a great honor for a former Janesville boy and many friends in this city will rejoice with him over his merited good fortune.

But Few People Know What Good Salted Peanuts Taste Like

"I think it is safe to state that but few people in Janesville realize how delicious good salted peanuts taste," said a "thing" word lady as she emerged from the Palace of Sweets restaurant on the bridge. "At the Palace of Sweets they salt their own peanuts and take extra good care of every pound salted. They salt peanuts daily. In no way are they like the kind you buy in grocery stores."

BUTTER EXHIBIT FOR BUFFALO EXPO.

If you wish to make an exhibit of butter at the Pan-American exhibition now being held at Buffalo, New York, for the month of September please comply with the following directions. Send to A. H. Barber, 229 S. Water Street, Chicago, Ill., two tubs of butter made from the same churning for inspection. One tub must contain at least thirty pounds and the other, the one inspected in Chicago, may contain less. If on inspection the butter is deemed fancy, the 30-pound tub will be forwarded to the exposition and the other will be disposed of by Mr. Barber as may be directed by the party who sends it. The butter for the September exhibit must reach Chicago on or before September 4. All charges on butter to Chicago must be prepaid. The state pays the transportation from Chicago to Buffalo. Write me care Dairy Building Pan-American Exposition, and state whether dairy or creamery butter and I will see that your entry is properly made. Please have your name and address plainly marked on each package so that it will not rub off. Please write me what to do with the butter after it is judged.

DR. MILLS DENIES

MALICIOUS INTENT

Dr. Jas. Mills was yesterday made defendant in a suit for damages to the amount of \$5,000 demanded by J. Oscar Kirkpatrick, who was arrested on a telegram sent on Aug. 7 to the police of Watertown, S. D., stating that he was wanted for robbing the safe in Dr. Mills' office, was discharged by Judge Fifield yesterday morning, after he had considered the evidence of the examination held Saturday last.

On the evening of August 6th or some time between 6:30 p. m. of August 6 and 3:30 p. m. of August 7, Dr. Mills' safe was robbed of about \$40 in silver and gold. Kirkpatrick had left he doctor's employ on the night of the robbery and left the city early on the morning of August 7. He had the keys to the office and was perfectly familiar with the premises. He did not have the combination to the safe but had more of a chance to learn it than any one else about the office.

His leaving for Dakota on the night of the robbery naturally directed suspicion toward him. After a consultation with the officers and district attorney Dr. Mills, made a complaint charging Kirkpatrick with robbery and Judge Fifield issued a warrant for his arrest. He was brought here from Watertown by Sheriff Maltress, had an examination and was acquitted.

He thinks that he has been greatly wronged by the doctor and acting under the advice of his attorney, C. E. Pierce, he today started the action against Dr. Mills for malicious prosecution. Dr. Mills denies having had any malicious intent. He says that he submitted the case to the proper authorities and that they advised the arrest.

Heir to an Inheritance.

Tsunetta Takahara, the Japanese young man who spoke not long ago at a meeting of the Christian Endeavor society of the Congregational church in this city and who is a student at Milton college, has fallen heir to an inheritance in Japan, by the death of his father. This young man embraced the Christian religion thus displeasing his father, who was a Buddhist, and the son was driven from home. He came to this country, and finally to Milton, where he has been working hard to obtain an education, and prepare himself to go back to his native country as a missionary to his own people. According to custom in Japan the son is the sole heir, even though the wife and daughters may be living, as they are in this case. Mr. Takahara will now have plenty of means to finish his education without work.

Women Conductors Fail.

Indianapolis, Ind., Aug. 20.—Why the Madison Light and Railway company got rid of women conductors was explained to the state tax board in an appeal from the assessment presented by C. J. Roberts, attorney, and C. B. Johnson, superintendent. The women conductors soon showed marked preferences for particular male passengers, Roberts said, and talked to them almost exclusively. This aroused the jealousy of other men, who showed their feelings by refusing to ride on the cars. The result was, said Roberts, that it was common to see a car with but one passenger and that one talking to the conductor.

Democrats Elect a Judge.

Peoria, Ill., Aug. 20.—Theodore N. Green, son of the late Judge N. W. Green of Pekin, was elected to the circuit judgeship to fill out the unexpired term of the late Thomas M. Shaw of Lacon over Franklin L. Velde of Pekin, the Republican candidate, by a majority of over 800. The result was a surprise, it being generally conceded that Velde would be elected by a small majority.

FEAR GENERAL WAR UPON THE ISTHMUS

A Fight Between Venezuela and Ecuador May Develop Many Serious Situations.

The South American war is growing and is likely to soon involve the whole country. The conflict which now concerns three countries is due to the attempt of President Castro to unite Venezuela, Colombia and Ecuador into one republic, consisting of three states, which would be virtually self-governing, though Caracas would be the capital. At first Colombia favored the scheme and the rebels under General Uribe are its strongest advocates, but Colombia insisted that Bogota, should be the capital, which was opposed by President Castro, who exercises an almost autocratic power. The proposed federation meant a republic with a population of not less than 8,000,000 inhabitants. Colombia has 3,800,000, Venezuela 2,500,000 and Ecuador 1,500,000. Despite its larger population Venezuela has only 5,000 regular troops, against Ecuador's 4,000, while Colombia has a standing army of 10,000.

With the insurgents of General Uribe-Uribe and the forces of Venezuela and Ecuador Colombia now faces an army of 11,000 soldiers, most of whom, however, are not as well trained as the Colombian regulars, though she has the disadvantage of being attacked on opposite borders.

Pasto, where a battle is reported imminent, is in the department of Cauca, where the population is dense and credited with a warlike spirit. The region is mountainous and there are some passes across which only a well trained expedition could go.

The Rio Mayo, a wide river, also offers an obstacle to invasion. It was here, during the war for independence, that General Bolivar and General Sucre with all the resources at their command, had their forces detained for a long period by the people of the province.

Uses Red-Hot Poker on Boy.

Baltimore, Md., Aug. 20.—Daniel Blizard, a 7-year-old lad, has been placed in the care of the society for protection of children from cruelty and his mother has been sentenced to six months in jail for torturing him. The lad told his mother a falsehood. She lighted a coal-oil lamp and held a stove poker over the blaze until it was red hot. She then forced the boy's jaws open and thrust the burning iron into his mouth and tortured him by keeping it there several minutes.

A Ray of Light

For woman's guidance is found in the fact that Dr. Pierce's Favorite Prescription cures female weakness and the diseases of the delicate womanly organs which darken the lives of so many women with suffering and sorrow. That ray of light has penetrated many darkened chambers where women moaned in misery, and has guided them out to health and happiness. "Favorite Prescription" is not a tonic, not a palliative, but a positive cure for the diseases which are peculiar to women. It gives vigor and vitality. It banishes nervousness, headache, and all the aches which come from a diseased condition of the womanly organs. A temperance medicine, it contains neither alcohol nor narcotics.

"I was troubled for three years with ulceration and female weakness and my doctor gave me but little relief," writes Mrs. Lulu Hunter, of Allenton, St. Louis Co., Mo. "I saw an advertisement in the paper of Dr. Pierce's Favorite Prescription. I began the use of it about a year ago. I took five bottles of it, and one bottle of Golden Medical Discovery, and my health is better now than it was for years. I have also recommended these medicines to some of my friends, who suffered from female weakness, and good results have followed."

AN INCREASE OF CHEESE FACTORIES

Wood and Other Northern Wisconsin
Counties Taking Rapid Strides
in Dairy Industry.

Grand Rapids, Wis., Aug. 20.—The fact that Wisconsin cheese is now recognized as the best article in the market and is bringing several cents a pound more than the product of the southern and central states and is leading to a marked increase in the manufacture of that commodity. Within the past season four cheese factories have been added to the already large number in this vicinity and many more have been erected in the northern part of the county, where grazing lands abound and much attention is paid to the raising of stock. The cheese business is showing the best results in this section of the state and is growing with a rapidity which will soon place Wood county on a par with any other in the co.

Apply for Electric Light

The application of a number of citizens for an electric light at the end of the street car line near the cemetery should be given due consideration by the council. A light at this point will be a great benefit to a large number of people that reside in that neighborhood. In a month or two the tobacco warehouses in that vicinity will be in operation and a light will be of service to the employees who have to walk a considerable distance from the factory to the car line. People driving up to the cemetery in the evening will also appreciate a light at this point where it will light up the entrance to the cemetery grounds.

The Ferris Comedians.

Ferris comedians, which is considered one of the most perfect of the repertoire organizations, will open its week's engagement at Myers opera house Monday night, Aug. 26th, with "The Hanger." The production will be given as near complete as the most advanced stage management can devise. The company in itself, is made up of clever people. The strength of the company, many bright specialties, the grand scenic effects, together with the choice selection of plays, should make the engagement one of decided interest. It has been the object of the Ferris comedians to provide a series of productions which should equal each other in strength and to make them as complete as possible. Monday will be ladies' free night. A ladies' and children's matinee will be given Saturday afternoon.

Northwest Gains Population.

The population of Idaho has increased 82 per cent since 1890, that of Montana 70 per cent, North Dakota 67, Wyoming 48, and Washington, 45. Nevada is the only state which shows an actual decrease in its population since 1890.

We still keep our lines complete on thin, cool goods, negligee shirts, the new things in straw hats flannel coats and pants, serge coats, linen pants, linen suits, children's wash suits, etc.

Late in the season we made purchases of these goods below value, so we offer even this late in the season big lines to select from as well as greatly reduced prices. Our reductions on light colored suits cannot fail to interest any buyer. Prices cut deep.

We make a specialty of black clothing of all kinds. A splendid line of children's shirt waists, with and without collars. A new line of 50 cent neckwear 25 cents, just in. A good line of bathing suits.
